Additional Winterization Services

Engine Winterization

Table with 3 columns: Please Check Appropriate Box, Gasoline, Diesel. Rows include Single Engine, Twin Engine, and Generator with prices.

Includes fogging of combustion chambers, draining raw water systems, flushing and filling raw water system with antifreeze, inspecting all water hoses, checking all belts, checking antifreeze in fresh water cooling system, spraying engines and electrical systems with CRC and greasing steering system on I/O's.

Total Engine Winterization

Additional Engine Service

Table with 3 columns: Please Check Appropriate Box, Gasoline, Diesel. Rows include Engine Oil & filter, Trans, Fluid & Filter, and Generator Oil & Filter.

Total Engine Services

Note: Time & Material fees will be estimated upon request.

Winter Stern Drive Services

Please Check Appropriate Box (es)

Stern Drive Storage \$ 190.00

Includes removal of stern drive, inspection of gimbaled bearing and housing. Indoor heated storage, scrape sand and repaint with one coat of anti fouling coating. Reinstallation in spring with new gasket set.

Stern Drive Preventative Maintenance

Mer cruiser Bravo I, II, or III Drives \$ 139.00 plus parts

Includes inspection of bellows, u-joints, upper and lower gear cases, prop shafts, and propellers for excessive wear. U-joints and prop shafts are greased and gear cases are drained and refilled with high-grade gear oil. The stern drive is pressure tested to insure integrity of seals and gaskets, new zinc anodes are installed.

Mer cruiser Alpha's & OMC Cobra's \$ 198.00 plus Parts

In addition to all the same services described for the Bravo Drives, these drives have water pumps that are replaced. While the drive is apart, the vertical and shift shafts are inspected for wear that may cause hard shifting.

Total Drive Service

Inboard Boat Running Gear Service \$ 135.00

Includes scraping all shafts, propellers and struts. Visually inspecting shafts, propellers for damage and excessive wear. Inspect cutlass bearings for wear and replace zinc's. Consider a computer generated prop scan analysis of your propellers to make sure your getting the most performance out of your running gear. This service is available at an additional charge, depending upon the size of your prop.

Total Inboard Gear Service

50% of the total bill must be left as a deposit before work is to begin. Your credit card will be charged after the work is completed unless indicated by you that another method of payment will be used.
